

In support of:

Workshop: Community-energy – Empowering local authorities and their communities to guide local sustainable energy roll-out

Local decision-makers, Council planners, local government associations / networks and energy agencies are invited to participate in this free workshop.

- How can a local government invest in community energy? Why?
- What are the barriers and how can they be overcome?
- How does one access funding for local climate and energy action? What models work?
- How can local authorities and community groups work together in renewable energy?

Where? Edinburgh

When? Thursday 25 September 2014

What? 1 full day workshop, providing an insight into opportunities to plan, set up, and finance community energy

Who? Open to local decision-makers, local authority staff and representatives of local government associations / networks and energy agencies, community organizations
