

CUTTING EMISSIONS FROM BUILDINGS

WWF SCOTLAND

HEAT NETWORKS

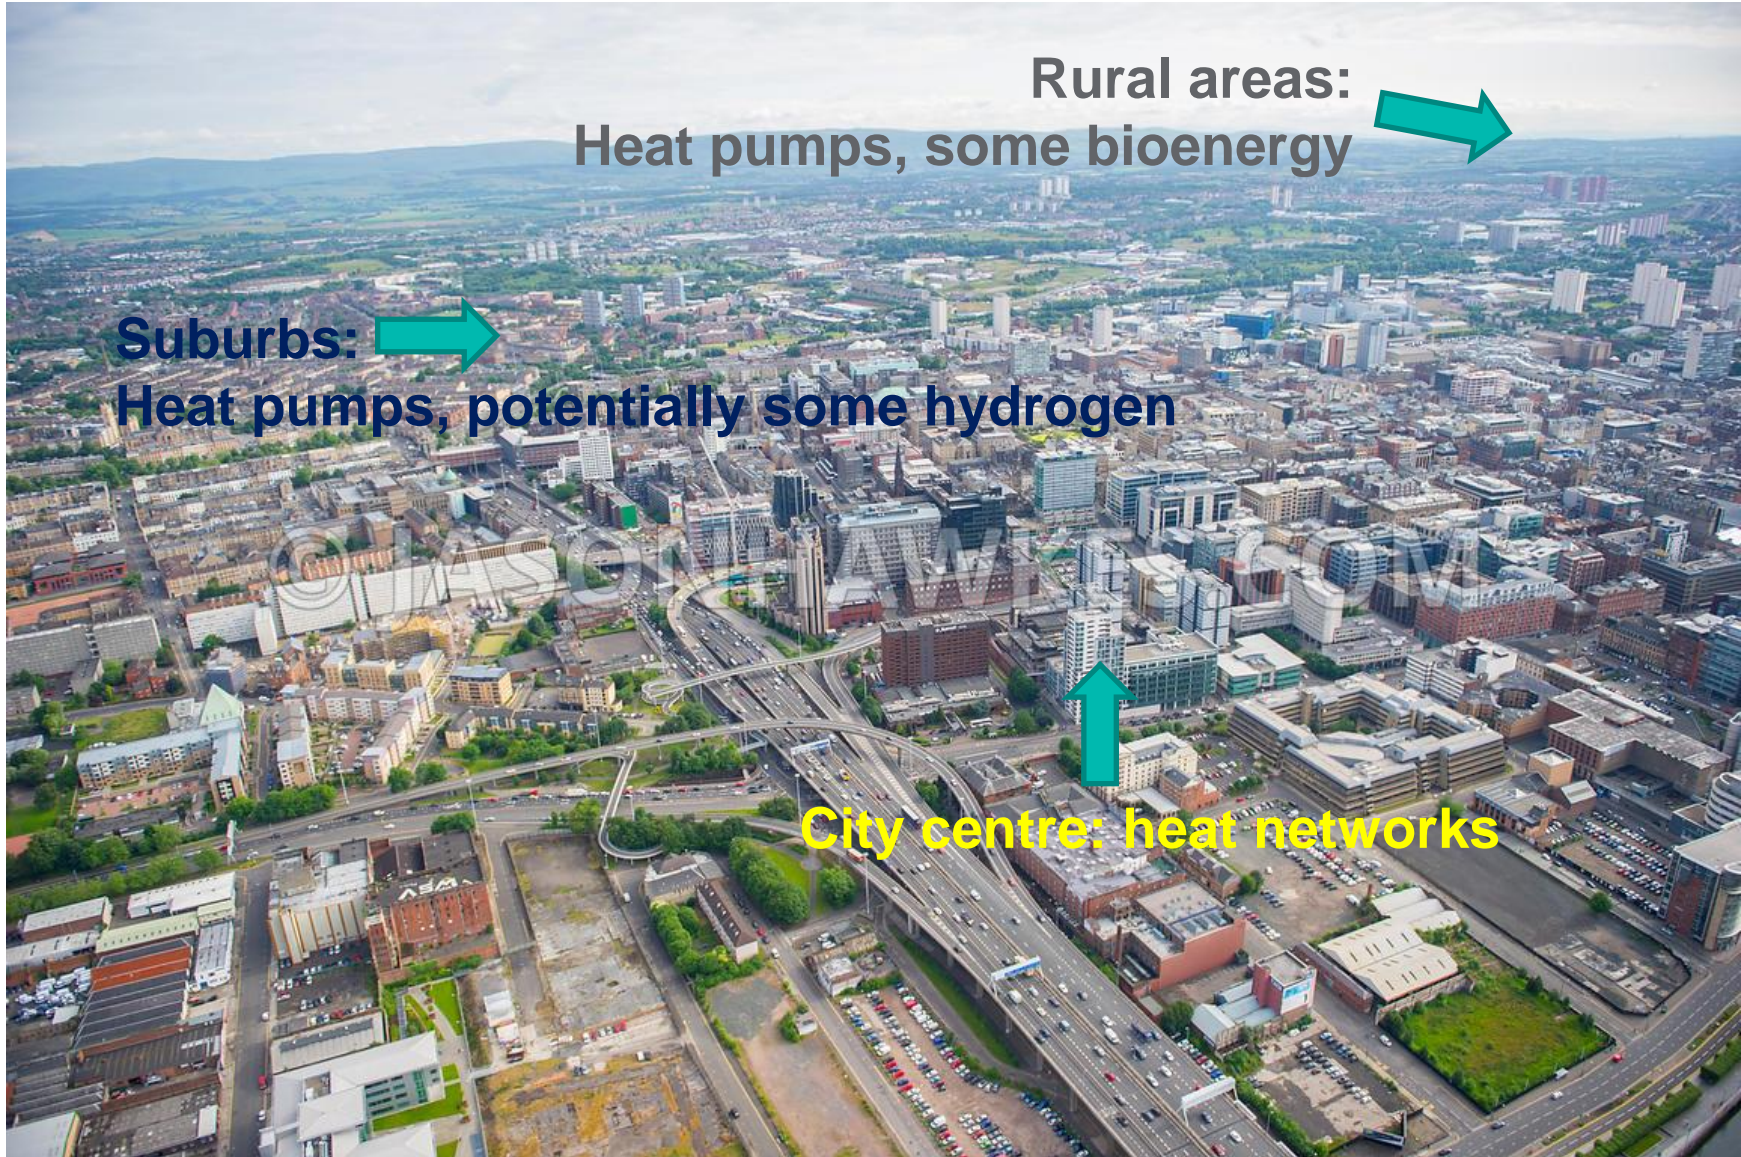

HEAT PUMPS

HYDROGEN?

Rural areas:
Heat pumps, some bioenergy

Suburbs:
Heat pumps, potentially some hydrogen

City centre: heat networks

JUST TRANSITION

What are the key issues?

Heating bills

Tax gas fairly

Upfront costs

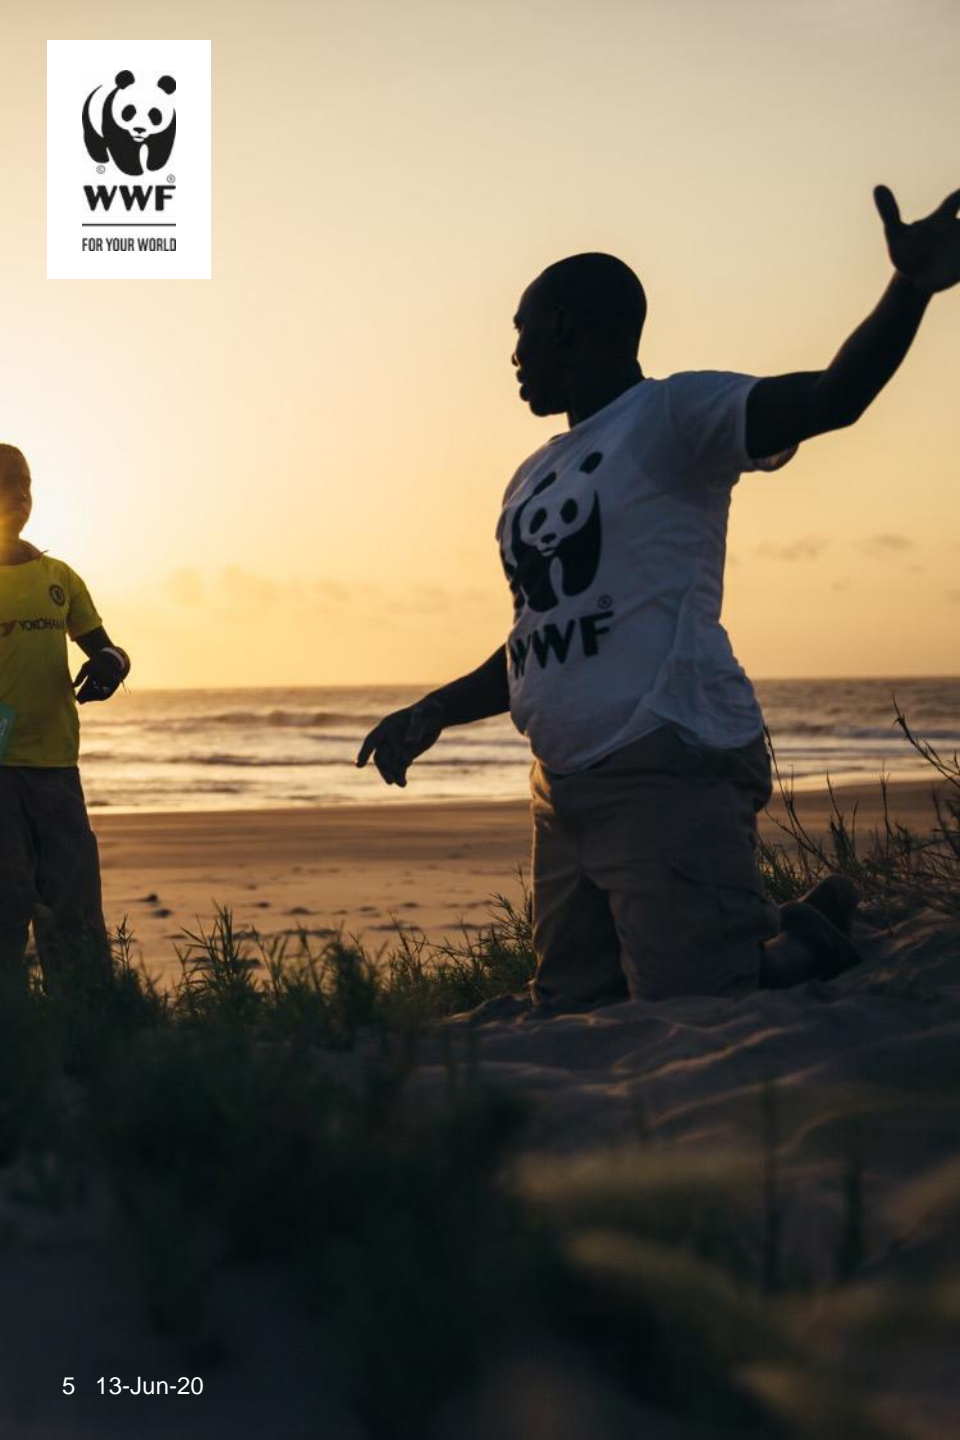

A sector deal to reduce costs

Workforce

Skills diversification

Better comfort

And better health

ACTION

A Heat Sector Deal

Long term funding & policy in return for supply chain investment & cost reduction.

- Plan to reach 70,000 heat pump installations per year in 5 years
- Set a clear ambition for heat network deployment by 2030
- Expand energy efficiency & fuel poverty schemes, implement regulations

FOR YOUR WORLD
