Short statement giving reasons for wishing to participate in FoES Board and skills and expertise that the candidate will bring:

I have participated in the FoES Board for the past two years in the position of YFoES representative and wish to stand again as a regular member of the board. This is to provide support and continuity to the board whilst they are undergoing recruitment for a new Director of FoES.

I have a master's degree in Environmental Change and Society from the University of Glasgow and specialised in environmental communication, particularly around communicating Climate Justice ideas in the wake of the popularisation of environmentalism from the public, and the co-option of the language of the environmental movement from mainstream and right-wing parties. I additionally have expertise in on the ground environmental activism from my involvement with Glasgow Calls Out Polluters, Green New Deal Rising, and divestment campaigning across Scotland. From this, I have a good sense of the mood and direction that the wider environmental activist landscape is taking and can apply that strategically via the board.

I have also been involved with FoES directly as a member of YFoES for over four years. During this time, I have particularly focussed on supporting YFoES's Just Transition work and the skillshares.
